Horticulture at Yallah Campus

The horticulture sector is growing right across the region. Driven from exciting landscape programs on television and through the expanding sports turf industry there is a broad range of employment opportunities. Yallah Campus offers a range of trades courses and Fast Track Training courses that you can undertake:

**Landscape Construction**
Learn all the technical skills of landscaping in areas such as: stonemasonry, paving, water features, soils and plant materials.

**Sports Turf Management**
Golf and bowling clubs are in constant need for the workers and this course will help you develop the skills in areas such as: irrigation, pest and weed treatment, machinery operation and field construction.

**Sustainable backyards**
Design and implement a holistic strategy to transform your home garden into functional and sustainable haven.

**Parks and Gardens**
Acquire the skills to maintain properties and open spaces. Topics include: plant identification, soils, machinery and chemical application.

**Arboriculture**
Learn all there is to know about tree climbing, pruning and removal in an exciting work environment.

**Chainsaw Operations**
Develop skills and knowledge to safely operate and maintain a chainsaw.

For more information about any of these courses contact: Craig Conway on 4262 9918 or via email craig.conway1@det.nsw.edu.au
