TAFE Illawarra to host the TAFE NSW WorldSkills Welding and Construction Steel Work Skills Development Camp

TAFE Illawarra is hosting the 2012 TAFE NSW WorldSkills Welding and Construction Steel Work Skills Development Camp at Wollongong Campus from 3 - 9 June 2012.

The Skills Development Camp is a preliminary event of the National WorldSkills competition that will be held at Sydney Olympic Park from 30 August to 1 September this year.

“We are pleased to be hosting the Development Camp this year because it is such a worthwhile event and will assist the competitors in identifying the key skill areas that they need to focus on and develop further,” said Dianne Murray, Institute Director.

“TAFE Illawarra is an excellent place to conduct significant events such as this, with our state-of-the-art training facilities and highly qualified and experienced teaching staff,” said Ms Murray.

“The Programs have been designed to suit each student’s training requirements and simulate the level of competition they are required to prepare for the National WorldSkills Competition,” she said.

“The Camp will also assist students to develop their individual training plans and strategies, with mentors and trainers on hand to offer them valuable support on their performance,” she added.

TAFE NSW WorldSkills conducts State Skills Development for students who have won or progressed from the WorldSkills Australia Regional competitions in preparation to compete at the National Competition.

Media are invited to attend the event to interview and photograph staff and students on Thursday 7 June 2012. Please contact Maria Sevastis on 4222 2928 if you are able to attend.
